

Custom Stamp - Examples of un/suitable images.

Too much contrast. We can work with some photographs, but not this one. The resolution is also too low.

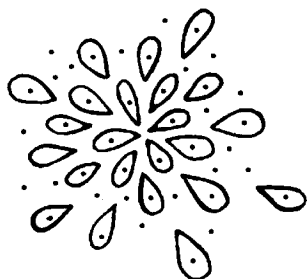

Perfect! Good solid image.

Perfect! Good clear text.

Perfect! Good solid image. There's no problem with the line width and the dots are not too small (don't make them smaller).

Text too small and fine. Use 10 or 12 point size minimum.

Both of the images to the left have been taken direct from a web site and the resolution is too low. You can test this by printing your image. If it looks fuzzy we can't use it.
